

The 10th International Chemistry Conference and Exhibition in Africa

About Conference and Exhibition.

The 10th International Chemistry Conference and Exhibition is an international event in Africa which is organized by *African Association of Pure & Applied Chemistry (AAPAC)* in every three years. This will comprise presentations from invited speakers as well as contributors from professionals from various parts of the world who are involved in different aspects of Chemistry subjects. The conference and exhibition will present challenges and opportunities for national and international organizations who are engaged in the field of research in chemistry to meet scientists, engineers, other professionals and decision makers.

The exhibition will provide opportunity to exhibitors to show their products and meet professionals, academicians and decision makers.

Technical Sessions

- Analytical Chemistry.
- Biochemistry.
- Chemical Education.
- Computational Chemistry.
- Inorganic Chemistry.
- Industrial Chemistry.
- Organic Chemistry.
- Physical Chemistry

Group Discussions

- Petroleum Chemistry and oilfield Chemistry.
- Chemistry and Environment.
- Chemistry of Natural products.

The exhibition is equipped researcher global equipment.

Note that there are possibilities for the work of latest equipment on demand.
